Ndryshimi i përdorimit të tokës sipas CLC 2000 - 2018

- Beaches, dunes, sands to Land principally occupied by agriculture, with significant areas of natural vegetation
- Beaches, dunes, sands to Transitional woodland-shrub
- Broad-leaved forest to Bare rocks
- Broad-leaved forest to Complex cultivation patterns
- Broad-leaved forest to Coniferous forest
- Broad-leaved forest to Land principally occupied by agriculture, with significant areas of natural vegetation
- Broad-leaved forest to Moors and heathland
- Broad-leaved forest to Natural grasslands
- Broad-leaved forest to Sclerophyllous vegetation
- Broad-leaved forest to Sparsely vegetated areas
- Broad-leaved forest to Transitional woodland-shrub
- Complex cultivation patterns to Discontinuous urban fabric
- Complex cultivation patterns to Land principally occupied by agriculture, with significant areas of natural vegetation
- Complex cultivation patterns to Non-irrigated arable land
- Complex cultivation patterns to Sclerophyllous vegetation
- Complex cultivation patterns to Sparsely vegetated areas
- Complex cultivation patterns to Transitional woodland-shrub
- Coniferous forest to Beaches, dunes, sands
- Coniferous forest to Complex cultivation patterns
- Coniferous forest to Mixed forest
- Coniferous forest to Natural grasslands
- Coniferous forest to Sparsely vegetated areas
- Coniferous forest to Transitional woodland-shrub
- Discontinuous urban fabric to Complex cultivation patterns
- Discontinuous urban fabric to Land principally occupied by agriculture, with significant areas of natural vegetation
- Discontinuous urban fabric to Natural grasslands
- Discontinuous urban fabric to Non-irrigated arable land
- Discontinuous urban fabric to Transitional woodland-shrub
- Land principally occupied by agriculture, with significant areas of natural vegetation to Beaches, dunes, sands
- Land principally occupied by agriculture, with significant areas of natural vegetation to Broad-leaved forest
- Land principally occupied by agriculture, with significant areas of natural vegetation to Complex cultivation patterns
- Land principally occupied by agriculture, with significant areas of natural vegetation to Coniferous forest
- Land principally occupied by agriculture, with significant areas of natural vegetation to Discontinuous urban fabric
- Land principally occupied by agriculture, with significant areas of natural vegetation to Mixed forest
- Land principally occupied by agriculture, with significant areas of natural vegetation to Moors and heathland
- Land principally occupied by agriculture, with significant areas of natural vegetation to Natural grasslands
- Land principally occupied by agriculture, with significant areas of natural vegetation to Sclerophyllous vegetation
- Land principally occupied by agriculture, with significant areas of natural vegetation to Sparsely vegetated areas
- Land principally occupied by agriculture, with significant areas of natural vegetation to Transitional woodland-shrub
- Mixed forest to Broad-leaved forest
- Mixed forest to Land principally occupied by agriculture, with significant areas of natural vegetation
- Mixed forest to Natural grasslands
- Mixed forest to Sparsely vegetated areas
- Moors and heathland to Broad-leaved forest
- Moors and heathland to Land principally occupied by agriculture, with significant areas of natural vegetation
- Moors and heathland to Natural grasslands
- Moors and heathland to Sparsely vegetated areas
- Moors and heathland to Transitional woodland-shrub
- Natural grasslands to Bare rocks
- Natural grasslands to Beaches, dunes, sands
- Natural grasslands to Broad-leaved forest
- Natural grasslands to Coniferous forest
- Natural grasslands to Discontinuous urban fabric
- Natural grasslands to Land principally occupied by agriculture, with significant areas of natural vegetation
- Natural grasslands to Mixed forest
- Natural grasslands to Moors and heathland
- Natural grasslands to Non-irrigated arable land
- Natural grasslands to Sclerophyllous vegetation
- Natural grasslands to Sparsely vegetated areas
- Natural grasslands to Transitional woodland-shrub
- Non-irrigated arable land to Transitional woodland-shrub
- Pastures to Broad-leaved forest
- Pastures to Complex cultivation patterns
- Pastures to Land principally occupied by agriculture, with significant areas of natural vegetation
- Pastures to Sclerophyllous vegetation
- Pastures to Transitional woodland-shrub
- Sclerophyllous vegetation to Bare rocks
- Sclerophyllous vegetation to Broad-leaved forest
- Sclerophyllous vegetation to Complex cultivation patterns
- Sclerophyllous vegetation to Land principally occupied by agriculture, with significant areas of natural vegetation
- Sclerophyllous vegetation to Mixed forest
- Sclerophyllous vegetation to Natural grasslands
- Sclerophyllous vegetation to Non-irrigated arable land
- Sclerophyllous vegetation to Sparsely vegetated areas
- Sclerophyllous vegetation to Transitional woodland-shrub
- Sparsely vegetated areas to Bare rocks
- Sparsely vegetated areas to Beaches, dunes, sands
- Sparsely vegetated areas to Broad-leaved forest
- Sparsely vegetated areas to Complex cultivation patterns
- Sparsely vegetated areas to Coniferous forest
- Sparsely vegetated areas to Land principally occupied by agriculture, with significant areas of natural vegetation
- Sparsely vegetated areas to Moors and heathland
- Sparsely vegetated areas to Natural grasslands
- Sparsely vegetated areas to Non-irrigated arable land
- Sparsely vegetated areas to Sclerophyllous vegetation
- Sparsely vegetated areas to Transitional woodland-shrub
- Transitional woodland-shrub to Bare rocks
- Transitional woodland-shrub to Broad-leaved forest
- Transitional woodland-shrub to Complex cultivation patterns
- Transitional woodland-shrub to Coniferous forest
- Transitional woodland-shrub to Discontinuous urban fabric
- Transitional woodland-shrub to Land principally occupied by agriculture, with significant areas of natural vegetation
- Transitional woodland-shrub to Mixed forest
- Transitional woodland-shrub to Moors and heathland
- Transitional woodland-shrub to Natural grasslands
- Transitional woodland-shrub to Non-irrigated arable land
- Transitional woodland-shrub to Sclerophyllous vegetation
- Transitional woodland-shrub to Sparsely vegetated areas

Mbështetja e PONT për prodhimin e kësaj harte nuk përbën një miratim të përmbytjes së saj, e cila pasqyron vetëm pikëpamjet e autorëve, dhe PONT nuk mund të mbahet përgjegjës për asnjë përdorim që mund t'i bëhet informacionit të përmbytur në të.
